

Electric Water Heater Rebates for Cooperative Members

UP TO
\$500
ELECTRIC WATER HEATER
REBATE

For full details on rebate amounts and qualifying water heaters, please visit ncelec.org/content/water-heaters.

North Central Electric Cooperative is offering rebates to cooperative members who install a new electric water heater and have a load management switch installed*. This rebate is only available to

members. The water heater must be installed within the preceding 12 months of the rebate request to qualify for incentives.

SPECIFIC REQUIREMENTS: The water heater must be installed at a location receiving electric service from the cooperative.

The water heater must be a minimum of 50 gallons and greater than 90 percent efficient, with an energy factor (E.F.) of 91% or higher, based on the GAMA Efficiency Rating Directory.

Solar, heat pump, and on-demand water heaters do not qualify.

All rebates are issued as a check after the purchase and load management switch installation. A maximum of two water heater rebates may be paid per home or facility per program year.

ADDITIONAL CREDITS: Members who install a load management switch will receive a \$1.50 monthly credit with switch installation.

*North Central Electric Cooperative's rebate on electric water heaters is limited. The offer expires when funds are depleted on a first-come, first-served basis, or when the program is discontinued.
